

# BOTANICARE® SLIDE BENCH

The Botanicare® Slide Bench is a versatile, modular system that provides complete grow space control. This system allows growers to modify length, optional working height, variable aisle width and drainage slope to adapt to any growing style, greenhouse or room size.

## Smart, flexible design

### LENGTH

Extend the length of your 7'6" base system in 2', 3', 4' and 5' increments (currently up to 100'6").

### HEIGHT

Ergonomic 12", 20" and 30" height options.

### AISLES

8.5" of travel from center provides a minimum aisle width of 17".

### DRAINAGE

Built-in slope/height adjustments up to 5" for 20" and 30" options, 2.5" for 12" option.

## Best-in-class strength, durability and stability

- Sturdy 1" x 2" powder-coated steel frame and tray support for maximum stability
- 25 lb per sq ft load rating
- Reinforced roller connectors provide smooth travel and won't deform under pressure
- Secured anti-tip bar with bump-stops to prevent tipping when loaded
- Heavy-gauge ABS trays resist bowing, cracking and leaking
- Integrated trellis support for 3/4" PVC or 1" conduit for trellising structures
- 5" and 2.5" slope/height adjustment uses 5/8" thick all-thread

## Features & benefits

- Bumper handles prevent tray-to-tray contact and allow airflow between benches
- Roller spacer maintains roller tube alignment
- 4.5" sidewall height provides flexibility in growing styles
- Drain screen with 3 punch-outs for plumbing lines
- Low VOC, waterproof, semi-permanent bonded trays allow simple removal or length adjustment
