COMPATIBLE WITH:

· AutoPot 8.5 L / 2.2 gal Pots
· AutoPot 15 L / 3.9 gal Pots

POTS AS USED IN:

· easy2grow Modules
· Auto8 Modules
· 1Pot Modules

CONTENTS:

1x PotDivider Base

1x Bottom Divider

1x Top Divider

1

Prepare your pots with root control as usual.

Put marix or root control discs (not supplied) into your 8.5L / 2.2 gal or 15 L / 3.9 gal pots (not supplied).

2

To assemble PotDivider take the Bottom Divider (see Contents above) and slide into the guide on the Base.
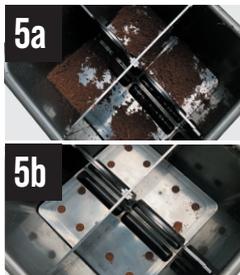

3

Take the Top Divider (see Contents above) and slot down into the slot in the Bottom Divider using the guides to create a cross-shape.

4

Place the assembled PotDivider into your 8.5 L / 2.2 gal or 15 L / 3.9 gal pot.

5a

5b

Pour a small amount of medium into each section of the PotDivider (5a).

Push the medium down through holes in the Base (5b) - **this is essential for capillary action to occur.**

6

Fill pots with medium and pot up plants. Water through pots and allow to drain outside the tray.

Once drained place pots into your module trays.
